Portfolio

EDUCATION

B.S. Computer Science
University of London

Expected Graduation: April 2026

SKILLS

Languages

JavaScript, Python, TypeScript, C++

Frameworks & Tools

React, React Native, FastAPI, Firebase, Expo, Unity, p5.js, ml5.js

Databases

NoSQL (Firebase)

LANGUAGES

- English (Fluent),
- Tagalog (Fluent)
- Hokkien (Intermediate)
- Mandarin (Basic)
- Japanese (Basic)

PROFESSIONAL EXPERIENCE

AI Research & Development Intern

TOUCH Lab – National Chin-Yi University of Technology, Taiwan

July 2025 – Nov 2025

- Led development of a medical AI prototype for clinical applications
- Coordinated with medical professionals for dataset preparation and validation
- Presented research at ISET 2025 International Conference
- Co-authored NSTC grant proposal for AI research funding
- Served as technical consultant for prototype deployment and optimisation

OTHER EXPERIENCES

Technical Team Director
Makati Gospel Church
2021 - 2025

Graphics Designer
Google Developers' Club
2022 - 2023

PROJECTS

Arbor : Financial Adviser Bot (Thesis)

FinTech | AI | Full-Stack

- Designed and implemented AI inference engine for stock analysis using Python and FastAPI
- Integrated local LLM for real-time financial Q&A
- Implemented authentication and NoSQL data storage using Firebase
- Designed full UI/UX system

Nota: AI-Powered Note-Taking App

Mobile | AI | Full-Stack

- Sole developer of Markdown-based AI productivity app
- Implemented automatic summarisation and review guide generation
- Reduced development overhead by 36% using Expo + Firebase
